"Publications of the Institute of Geophysics, Polish Academy of Sciences" (previously "Materiały i Prace") at present appears in the following series:

- A – Physics of the Earth's Interior
- B – Seismology
- C – Geomagnetism
- D – Physics of the Atmosphere
- F – Planetary Geodesy
- G – Numerical Methods in Geophysics
- M – Miscellanea

Every volume has two numbers: the first one is the current number in the series and the second one (in brackets) is the consecutive number of the journal.

DOC. ZOFIA KALINOWSKA
1904-1983

Dnia 3 stycznia 1983 r. zmarła w Warszawie w wieku 78 lat
Zofia Kalinowska, emerytowany docent Polskiej Akademii Nauk.

Zofia Kalinowska urodziła się 16 czerwca
1904 r. w Monachium, w mieście w którym wte-
dy czasowo mieszkali Jej rodzice, w związku
z konkursową pracą Jej ojca Stanisława Kali-
nowskiego, wykonywaną w pracowni Prof. Rönt-
gena. Początkowo nauki szkolne pobierała w
domu, następnie w gimnazjum J. Kowalczykówny
i J. Jawurkówny w Warszawie. Ukończyła je w
1922 r. Studia wyższe odbyła w latach 1922-
-1927 na Wydziale Matematyczno-Przyrodniczym
Wolnej Wszechnicy Polskiej w Warszawie. Dyp-
lom tejże uczelni, z zakresu geofizyki, uzyska-
ła w 1933 r. po przedstawieniu pracy dyplomowej i zdaniu egzaminu.

1 czerwca 1922 r., w charakterze młodszego asystenta, rozpoczę-
ła pracę w Obserwatorium Magnetycznym w Świdrze. W Obserwatorium
tym pracowała do 1975 r., w którym to przeszła na emeryturę, będąc
na stanowisku samodzielnego pracownika naukowego. W początkowych
latach łączyła zatem obowiązki pracy w Obserwatorium ze studiami
na wyższej uczelni.

Przez całe swoje życie Z. Kalinowska była związana zawodowo i
uczuciowo z działalnością Obserwatorium Magnetycznego w Świdrze.
Obserwatorium to, jako pierwsza tego rodzaju placówka naukowa w
Polsce, zostało założone przed pierwszą wojną światową przez Jej
ojca Prof. S. Kalinowskiego. Rozwój i zakres prowadzonych prac
z dziedziny magnetyzmu ziemskiego w okresie odrodzonego Państwa
Polskiego Obserwatorium zawdzięcza głównie działalności organiza-
cyjnej i naukowej Jej ojca; a także ofiarnej pracy obydwu Jego
córek, mianowicie Zofii Kalinowskiej i Ewy Widomskiej-Kalinow-
skiej. Rozpoczęcie w Świdrze w 1928 r. badań nad elektrycznością
atmosferyczną przyczyniło się do nadania tej placówce naukowej no-

wej nazwy, mianowicie - Obserwatorium Geofizycznego. Z tego okresu znane są prace Z. Kalinowskiej (wspólne z E. Widomską-Kalinowską) z zakresu zmian wiekowych stałej magnetycznej w Świdrze. Uczestniczyła w pracach przygotowawczych Obserwatorium na IV Kongres Międzynarodowej Unii Geodezyjno-Geofizycznej w Sztokholmie w 1930 r. Uczestniczyła również w Kongresie tej Unii w 1936 r. w Edynburgu. Wyrazem uznania dla pracy Zofii Kalinowskiej nad magnetyzmem ziemskim w Polsce było powołanie Jej, na VIII Zjeździe w 1948 r. w Oslo, na członka Międzynarodowej Komisji Stacji Zmian Wiekowych, Międzynarodowej Asocjacji Magnetyzmu i Elektryczności Ziemskiej.

Podczas okupacji niemieckiej naszego kraju, pomimo ciężkich warunków materialnych i mając na utrzymaniu przybraną córkę, Z. Kalinowska pracowała nadal w Obserwatorium w Świdrze. W 1946 r., po śmierci ojca i zgodnie z Jego uprzednim życzeniem, Z. Kalinowska została kierownikiem Obserwatorium Geofizycznego w Świdrze. Funkcja ta została Jej powierzona przez Komitet Muzeum Przemysłu i Rolnictwa w Warszawie, który do tej pory był formalnym opiekunem tej Placówki.

Po drugiej wojnie światowej, na skutek stworzenia sprzyjających warunków przez władze państwowe, oraz po przyłączeniu Obserwatorium do Zakładu Geofizyki Polskiej Akademii Nauk, a także dzięki wytrwałej i umiejętnej pracy organizacyjnej i naukowej Z. Kalinowskiej, nastąpił dalszy rozwój kierowanej przez nią placówki naukowej w Świdrze. Zakres prac pomiarowych i naukowych został wtedy znacznie rozszerzony, tak w obrębie magnetyzmu ziemskiego, jak i w dziedzinie elektryczności atmosferycznej. Głównym tematem pracy Z. Kalinowskiej były w tym czasie zagadnienia nad mapą magnetyczną Polski w jej nowych granicach powojennych i nad przebiegiem zmian wiekowych. Pod Jej kierownictwem i dzięki Jej staraniom Obserwatorium w Świdrze wydało drukiem zaległe roczniki magnetyczne z lat trzydziestych i z lat drugiej wojny światowej, a także bieżące roczniki powojenne magnetyczne oraz elektryczności atmosferycznej i meteorologii. Dzięki Jej staraniom Obserwatorium w Świdrze obchodziło w 1960 r. jubileusz 50 lat swojej działalności, upamiętniony wydaniem książki jubileuszowej.

W ostatnim okresie swojej pracy w Obserwatorium wiele wysiłku i starań włożyła Ona w sprawę uratowania dalszej działalności stacji magnetycznej w Świdrze, której groziła likwidacja ze względu na występujące coraz silniejsze zakłócenia w rejestracji pola magnetycznego, spowodowane przez trakcję kolei elektrycznej, rozbudo-

wywanej w latach powojennych w rejonie na południowy wschód od Otwocka. Dzięki inicjatywie Z. Kalinowskiej i Jej siostry E. Widomskiej-Kalinowskiej, i pod kierunkiem prof. S. Manczarskiego opracowano w Obserwatorium metodę częściowej eliminacji tych nieporządkowanych zakłóceń na przebieg rejestracji jednej składowej pola magnetycznego. Pomimo pewnych pozytywnych wyników w tym zakresie, stacja magnetyczna w Świdrze musiała w 1976 r. przerwać rejestrację i ograniczyć się do prowadzenia sporadycznych pomiarów, wykorzystywanych do śledzenia wiekowych zmian pola magnetycznego. W tej sytuacji dalszy rozwój działalności tej placówki Z. Kalinowska widziała w kontynuacji badań nad elektrycznością atmosferyczną. Oprócz tego dążyła do zorganizowania i stworzenia w Świdrze muzeum magnetyzmu ziemskiego, które obrazowałoby rozwój tej nauki w Polsce oraz prezentowałoby pamiątki po założycielu Obserwatorium Prof. S. Kalinowskim. Jeszcze w okresie Jej kierownictwa, w dawnym pawilonie pomiarów absolutnych, zostały zorganizowane zaczątki muzeum. Do dnia dzisiejszego jest ono dostępne dla wycieczek odwiedzających Obserwatorium. Marzeniem ostatnich lat pracy Z. Kalinowskiej było to, aby istniejącą ekspozycję wystawową magnetyzmu rozszerzyć w przyszłości na inne pokrewne dziedziny nauki i stworzyć w Świdrze muzeum geofizyczne. Mając ciągle na uwadze przyszłościowy rozwój działalności Obserwatorium Zofia Kalinowska wyraziła zgodę na sprzedaż Polskiej Akademii Nauk swojego domu rodzinnego wraz z posesją, powiększając w ten sposób pomieszczenia i teren Obserwatorium.

Z. Kalinowska była zwolenniczką współpracy z wieloma instytucjami krajowymi oraz zagranicznymi i z dużą satysfakcją udostępniała materiały pomiarowe Obserwatorium w Świdrze, które były wykorzystywane do celów naukowych i gospodarczych. Od początku powstania Polskiego Towarzystwa Geofizyków w 1930 r. była stałym jego członkiem, biorąc czynny udział w jego działalności. Była popularyzatorką wiedzy o naukach geofizycznych i jest znaną autorką kilku książek popularnonaukowych o magnetyzmie ziemskim i elektryczności atmosfery.

Z. Kalinowska za zasługi dla nauki polskiej została odznaczona Krzyżem Kawalerskim Orderu Odrodzenia Polski oraz Medalem 10-lecia Polski Ludowej.

Z. Kalinowska była cenionym, oddanym i zasłużonym pracownikiem naukowym z zakresu magnetyzmu ziemskiego. Była kontynuatorką idei

swojego ojca. Całe swoje życie poświęciła pracy dla rozwoju tej dziedziny wiedzy. Była człowiekiem szlachetnym, ogólnie szanowanym i życzliwym dla ludzi i takż pozostać w naszej pamięci.

Stanisław Warzecha

ELECTRICITE ATMOSPHERIQUE ET METEOROLOGIE
OBSERVATOIRE GEOPHYSIQUE DE S. KALINOWSKI A SWIDER

Stanisław WARZECHA

Institut de Géophysique de l'Académie Polonaise des Sciences,
Varsovie

AVANT-PROPOS

La présente publication contient les résultats de l'enregistrement de certains éléments de l'électricité atmosphérique et ceux des observations diurnes (24 h) des principaux facteurs météorologiques, effectuées à l'Observatoire Géophysique Stanisław Kalinowski de l'Académie Polonaise des Sciences, à Swider. Les matériaux se rapportant aux années 1957-1981 ont été publiés dans les numéros 16, 19, 20, 22, 25, 29, 33, 34, 38 des "Travaux de l'Observatoire Géophysique de Stanisław Kalinowski de l'Académie Polonaise des Sciences à Swider" ainsi que dans les numéros 23, 28, 38, 44, 53, 63, 77, 80, 92, D-2 (104), D-6 (121), D-8 (131), D-10 (140), D-12 (148), D-14 (151), D-16 (158), des "Publications of the Institute of Geophysics, Polish Academy of Sciences".

La topographie du village de Swider et l'emplacement des instruments de mesure dans l'Observatoire, ont été décrits en détail dans les numéros précédents de "Electricité Atmosphérique et Météorologie Observatoire Géophysique de St. Kalinowski à Swider". On y trouvera également la description complète des instruments utilisés, des méthodes de mesures et de traitement des données.

En 1982, les mesures de l'électricité atmosphérique et des éléments météorologiques ont été réalisées par: S. Warzecha, W. Kozłowski, K. Kostrzewa, D. Jasinkiewicz et S. Bania. Toutes les personnes susmentionnées ont pris part à l'élaboration et au dépouillement des matériaux. L'impression des matériaux a été préparée par S. Warzecha. Le chef du Laboratoire de l'Electricité Atmosphérique de l'Institut de Géophysique à Varsovie, S. Michnowski, ont assuré la coordination de l'ensemble des travaux.

INTRODUCTION

The present issue contains the results of recordings of some elements of atmospheric electricity and daily observations of major meteorological factors, noted at the S. Kalinowski Geophysical Observatory of the Polish Academy of Sciences at Swider. Data for the years 1957-1981 have been published in "Prace Obserwatorium Geofizycznego im. St. Kalinowskiego w Swidrze" (Nos. 16, 19, 20, 22, 25, 29, 33, 34, 38) and in "Publications of the Institute of Geophysics, Polish Academy of Sciences", previously "Materiały i Prace" (Nos. 23, 28, 38, 44, 53, 63, 77, 80, 92, D-2 (104), D-6 (121), D-8 (131), D-10 (140), D-12 (148), D-14 (151) and D-16 (158), respectively).

The topography of Swider village and location of measuring instruments at the Observatory have been described in detail in the previous issues of the "Electricité Atmosphérique et Météorologie Observatoire Géophysique de St. Kalinowski à Swider". The thorough description of the instruments used, methods of measurement and data treatment can also be found there.

In 1982, the atmospheric electricity and meteorological observations, as well as the data treatment, were carried out by S. Warzecha, W. Kozłowski, K. Kostrzewa, D. Jasinkiewicz and S. Bania. The material was prepared for publication by S. Warzecha. The project was supervised by S. Michnowski, head of the atmospheric electricity section of the Institute of Geophysics.

- m - brouillard - mist
- z - nauge des poussière - haze
- hf - givre - hoar frost
- w - tourbillon - snowstorm
- ws - tourmente de neige - snowstorm with snow falling
- wind - vent vitesse > 6 m/s - wind velocity > 6 m/s

RELEVÉ DES SYMBOLES INTERNATIONAUX
INTERNATIONAL SYMBOLS USED

- Pluie - rain
- ▽ Pluie passagère - shower of rain
- ◊ Bruine - drizzle
- * Neige - snow
- ▽ Neige passagère - shower of snow
- △ Neige granuleuse - granular snow
- △ Grésil mou - soft hail
- △ Grésil gros - small hail
- △ Pluie glaciale - grains of ice
- ▲ Grêle - hail
- * Pluie accompagnée de neige - sleet
- ← Aiguilles de glace - ice needles
- ∩ Rosée - dew
- ⊔ Givre - hoar frost
- ∨ Gelée blanche - soft rime
- ∩ Verglas - glazed frost
- ⊞ Verglas sur le sol - glazed frost on the ground
- *+ Tourmente de neige - snow-storm
- + Tourbillon de neige près du sol - drifting snow (near the ground)
- + Tourbillon de neige à une certaine altitude - drifting snow (high up)
- ≡⁰ Brume modérée - moderate fog
- ≡¹ Brume épaisse - heavy fog
- ≡² Brume très épaisse - very heavy fog
- ≡ Brume au ras du sol - ground fog
- ≡ Brouillard - mist
- ∞ Nuage de poussière - haze
- ⊚ Orage - thunderstorm
- (⊚) Orage lointain - distant thunderstorm
- ⚡ Éclair - lightning
- ⊕ Halo autour du soleil - solar halo
- ⊙ Halo autour de la lune - lunar halo
- ⊗ Couronne solaire - solar corona
- ⊙ Couronne lunaire - lunar corona
- ☺ Arc-en-ciel - rainbow
- ☀ Aurore - aurora

D. ATMOSPHERE PHYSICS

The following volumes, which have been published previously in years 1963–1982, have been devoted to the problems of atmosphere physics:

- 1 Cha-Pa observatory aerological data 12 August 1957–31 January 1959; PWN, Łódź 1963.
- 5 Ozon atmosferyczny i optyka atmosfery, Belsk 1963 rok; PWN, Łódź–Warszawa 1965.
- 7 Cha-Pa observatory atmospheric electricity and radioactivity data 1958–1959; PWN, Warszawa 1965.
- 10 Ozon atmosferyczny i optyka atmosfery, Belsk 1964; PWN, Łódź–Warszawa 1966.
- 11 Słomka J., Badania dopływu promieniowania słonecznego w zakresach widma ważnych dla procesów energetycznych i biologicznych; PWN, Łódź–Warszawa 1966.
- 13 Ozon atmosferyczny i optyka atmosfery, Belsk 1965; PWN, Łódź–Warszawa 1966.
- 19 Atmospheric ozone and optics of atmosphere, Belsk 1966; PWN, Warszawa 1967.
- 23 L'électricité atmosphérique et météorologie de l'Observatoire Géophysique de St. Kalinowski à Świder 1966; PWN, Warszawa 1968.
- 25 Atmospheric electricity; PWN, Warszawa 1968.
- 26 Atmospheric ozone, optics and aerosol of the atmosphere, Belsk 1967; PWN, Warszawa 1968.
- 28 Électricité atmosphérique et météorologie Observatoire Géophysique de St. Kalinowski à Świder 1967; PWN, Warszawa 1969.
- 33 Atmospheric ozone and optics of atmosphere, Belsk 1968; PWN, Warszawa 1969.
- 38 Électricité atmosphérique et météorologie Observatoire Géophysique de St. Kalinowski à Świder 1968; PWN, Warszawa 1970.
- 42 Atmospheric ozone and optics of atmosphere, Belsk 1969; PWN, Warszawa 1971.
- 44 Électricité atmosphérique et météorologie Observatoire Géophysique de St. Kalinowski à Świder 1969; PWN, Warszawa 1971.
- 49 Atmospheric ozone and optics of atmosphere, Belsk 1970; PWN, Warszawa 1972.
- 53 Électricité atmosphérique et météorologie Observatoire Géophysique de St. Kalinowski à Świder 1970; PWN, Warszawa 1972.
- 56 Atmospheric ozone, optics of atmosphere and solar radiation, Belsk 1971; PWN, Warszawa 1972.
- 63 Électricité atmosphérique et météorologie Observatoire Géophysique de St. Kalinowski à Świder 1971; PWN, Warszawa 1973.
- 69 Atmospheric ozone, optics of atmosphere, solar radiation, Belsk 1972; PWN, Warszawa 1973.
- 75 Atmospheric ozone, optics of atmosphere, solar radiation, Belsk 1973; PWN, Warszawa 1974.
- 77 Électricité atmosphérique et météorologie Observatoire Géophysique de St. Kalinowski à Świder 1972; PWN, Warszawa 1974.
- 80 Électricité atmosphérique et météorologie Observatoire Géophysique de St. Kalinowski à Świder 1973; PWN, Warszawa 1974.
- 81 Michnowski S., Badania zmian pola elektrycznego po wyładowaniach atmosferycznych; PWN; Warszawa 1974.
- 89 The international comparison of ozone spectrophotometers, Belsk, 24 June–6 July 1974; PWN, Warszawa 1975.
